PREFACE.

The several editions of our Catalogue previously issued having been completely exhausted, we have determined on a new departure in printing an Author and Title Catalogue of the books in our Library, instead of, as previously, a Subject Catalogue. We have carefully considered the objections against changing our style of Catalogue, but have decided upon the present form, believing that it will be found more convenient for use by the large majority of our readers. Subject Catalogues usually require some technical skill on the part of the user, and as the great majority of readers in a Public Circulating Library do not possess this advantage, it seemed to us more advantageous to print the Catalogue in the form which would render our books more accessible to the general reader. Books are known to people, as a rule, either by their Titles, or by their Authors, and therefore, the scheme of listing the books under both Title and Author, gives the reader a double chance to find the book sought for.

We would especially call attention to the facility afforded readers by our Index Classification for judging the character of a book by its call number. A perusal of this Index will enable the student to determine at once by a hasty glance through the Catalogue, what books are in the particular class he is seeking. For the special student, our Card Catalogue, which is arranged under Subject and Author, will be found adequate.

JOSEPH H. McMAHON,

Director of the Cathedral Library.

GW

EXPLANATION.

1. The plan of this Catalogue is that of the single alphabet of Authors and Titles; yet, at times, for convenience sake, when two or more Authors or Titles, or both, refer to one and the same subject, they are placed under a general subject heading. In the arrangement of names under such a heading, as well as in the general compiling of the Catalogue, the rules of Charles A. Cutter for a "Dictionary Catalogue," as far as practicable, have been observed.

2. When the same word serves for several kinds of headings, the order is the following: *Person*, *Place*, *Subject* (excepting person or place) and *Title*.

3. In the arrangement of Headings of like names, the following order is carried out: Saints, Popes, Emperors, Kings, Princes (including Cardinals and Bishops) and Noblemen.

4. Authors are entered under the Pseudonym or Assumed Name, whenever such is better known than the real name, or, whenever the real name is unknown. Reference to such a name is made from the real name.

5. Anonymous books are entered under the name of the Title only.

6. Titles are entered under the first word (not an article), and also under an important or catch word, when such occurs in a Title.

7. Under a Subject Heading, referred to above, if the Subject is an Author, the following order is generally observed: Complete Works, Extracts of Works, Simple Works in alphabetical order of Title (except in the case of a Series, which are arranged as the books are to be read), Commentaries on, Memoirs, and Life of the Subject, arranged in alphabetical order of Authors, when known, or of Titles, if Author is unknown.

8. The Letters, followed by Numbers among "Classes and Sub-Classes" of the "Index of Classification" on the following pages, refer to the letters and first numbers opposite the names of Author and Title of Books in the Catalogue; *juvenile books* are either marked L7, as indicated in said Index of Classification, or have the letter J prefixed to any of the other letters of that list. As an example of this, we might mention M4080 of the Catalogue. Referring to the List of Classification, we note that M4 stands for "Essays and Criticism," hence, even if the Title should be misleading, we know that M4080 treats of that subject. Again, since L7 refers to Juvenile Literature, we know that L7327 is a book of this character; and in like manner we find Jt4217 to be a book on the life of some American for a young reader, because T4 stands for American Biography, and the J preceding the other letter indicates the item to be: "Juvenile Literature."

Rules and Regulations

OF THE

CATHEDRAL LIBRARY.

Any resident of the City of New York who comes suitably recommended may become a member of the Library without charge, upon promising to comply with all the rules and regulations thereof. Children must have their applications for membership signed by some responsible person other than their parents or guardians. Applications for membership should be made at the Library, 123 East Fiftieth street.

The Library is open on weekdays from 9 A. M. to 9 P. M.; Sundays from 10 A. M. to 12 M. The Library is *not* open on legal holidays.

Members are allowed to draw only one book of fiction at a time. A second book of another class may be drawn by system described below.

Books may be kept out two weeks, except in cases where the book being in greater demand, a shorter specified time will be allowed. Renewals of books may be made either personally or by letter. Books in demand will not be renewed.

As soon as a book is overdue the member is notified by postal card. A fine of one cent is charged for each day the book is kept over the time specified. No books will be issued until all fines have been paid.

For the sake of convenience books will be delivered by messengers at the residences of members at the rate of five cents for each book so delivered; car fare to be charged extra.

Books lost must be paid for. If the book lost be one of a set, the price of the entire set may be demanded.

The Director will not be responsible for books returned to any other person than the Librarians at the Library proper.

TWO BOOKS' SYSTEM.—In order to encourage members to read a higher class of books than fiction, the two books' system has been introduced in the Cathedral Library and its branches. By this system members are allowed to draw two books at one time, the stipulation being that only one of these books be a work of fiction. The extra book thus drawn may be retained until read, provided it be renewed every two weeks.

Each month a list of the new books added to the Library during the previous month is posted up, together with a list of books which furnish suitable reading for the different seasons.

AGNES WALLACE, *Librarian.*

National Cyclopaedia of American Biography.

BEING THE HISTORY OF THE UNITED STATES GIVEN IN THE LIVES OF THE
FOUNDERS, BUILDERS AND DEFENDERS OF THE REPUBLIC, AND OF
THE MEN AND WOMEN WHO ARE DOING THE WORK AND
MOULDING THE THOUGHT OF THE PRESENT TIME.

UNDER THE SUPERVISION OF DISTINGUISHED EDITORS FROM EVERY STATE TO INSURE
A THOROUGHLY NATIONAL AND REPRESENTATIVE CHARACTER.

The biographies include the genealogies, family histories and marriage records of the subjects, and are invariably submitted for correction and revision either to the subjects themselves or their relatives or descendants, and the work thus becomes

The Official Cyclopedia of Biography in the United States.

Nearly every biography is accompanied by a lifelike portrait and fac-simile autograph, bringing the reader face to face with the subject, whose life becomes much more interesting and intelligible.

The Press has universally commended it as being of inestimable value, surpassing anything of the kind ever published in any country and the Biographical authority of the next century.
